

Mission Statement

The Foundation will help the children of Tibet be healthy by supplementing their diets while in school, providing regular clinic services and ensuring adequate clothing and bedding. We will contribute to their education by providing needed school supplies and equipment, repairing school facilities, and recognizing and rewarding teaching excellence. The Foundation will provide scholarships to deserving students to pursue further studies in Tibet as well as other places. For those children who pursue further education in the United States, we will find willing families to provide these students a home away from home.
